The Contractor will report any unauthorized disclosures of such information in compliance with this Section.
- P. Confidentiality of State Information. The Contractor understands and agrees that data, materials, and information disclosed to the Contractor may contain confidential and protected information. The Contractor covenants that data, material and information gathered, based upon or disclosed to the Contractor for the purpose of this Contract, will not be disclosed to or discussed with third parties without the prior written consent of the State.

The parties acknowledge that the services to be performed by Contractor for the State under this contract may require or allow access to data, materials, and information containing Social Security numbers maintained by the State in its computer system or other records. In addition to the covenant made above in this section and pursuant to 10 IAC 5-3-1(4), the Contractor and the State agree to comply with the provisions of IC 4-1-10 and IC 4-1-11. If any Social Security number(s) is/are disclosed by Contractor, Contractor agrees to pay the cost of the notice of disclosure of a breach of the security of the system in addition to any other claims and expenses for which it is liable under the terms of this contract. - Q. Contractor will indemnify and hold the State harmless from any loss, damage, costs, expense, judgment, sanction or liability, including, but not limited to, attorneys' fees and costs, that the State incurs or is subject to, as a result of a breach of this Section by the Contractor or any subcontractor, agent or person under Contractor's control. In the event a claim is made against the State for any such claim, cause of action, liability, damage, cost or expense, State may, at its sole option: (i) tender the defense to Contractor, who shall provide qualified and competent counsel to represent the State interest at Contractor's expense; or (ii) undertake its own defense, utilizing such professionals as it deems reasonably necessary, holding Contractor responsible for all reasonable costs thereof. In any event, State shall have the sole right to control and approve any settlement or other compromise of any claim brought against it that is covered by this Section.
- R. Contractor shall adhere to all relevant FSSA Security Policies for any related activities provided to FSSA under this Contract. Contractor is responsible for verifying that any subcontractors they engage will also comply with these policies. Any exceptions to these policies require written approval from the FSSA Privacy & Security Office.
- S. Access to FSSA and/or State Information Systems.

(1) "FSSA and/or State Information Systems" means all computing hardware and related components, all computer software and related components, all network devices and related functions, and data owned by, licensed to, in the legal custody of, and/or operated by FSSA and/or the State.

(2) If the Contractor, in the performance of Contractor's services under this Contract, is authorized and granted by the State with access to FSSA and/or State Information Systems:

(A) Contractor agrees that it and all members of its workforce (as used here, "workforce" means employees, volunteers, interns, trainees, (sub)contractors, and other persons whose conduct is under the control of Contractor) performing such services will comply with all FSSA and State Privacy and Security Policies and Procedures.

(B) All members of Contractor's workforce who are or will be granted access to FSSA and/or State Information Systems will undertake and certify completion of all FSSA and State mandated privacy and security training following a schedule reasonably required by FSSA and the State (e.g., upon new hire/assignment and annually thereafter).

(C) All members of Contractor's workforce who are or will be granted access to FSSA and/or State Information systems will agree in writing or through electronic confirmation to the rules of behavior regarding access to and use of FSSA and/or State information systems; such rules of behavior include, but are not limited to the State Information Resource Use Agreement ("IRUA").

(D) Such training and rules of behavior agreement will be coordinated with Contractor by the FSSA Privacy and Security Office and the Indiana Office of Technology ("IOT").

(E) Any members of Contractor's workforce who fail to complete the required training as described above within the scheduled timeframes or who fail to agree

to the rules of behavior will not be permitted to access FSSA and/or State information systems.

(F) Access to and usage of FSSA and/or State Information Systems is controlled through role-based access privileges and follows the principle of least privilege, meaning users are granted access to/usage of only the minimum amount of information and system functions necessary to perform their role or job assignment. As such, FSSA or its designee will provide Contractor with a list of roles it deems necessary for Contractor to perform the services; Contractor will identify each individual workforce member who requires access to/usage of FSSA and/or State Information Systems and the role to be assigned to each individual. Contractor will certify in writing that the role assigned to each individual workforce member is necessary and appropriate for the individual to perform their job assignment with respect to the performance of Contractor's services under this Contract.

(G) FSSA will authorize and grant Contractor workforce member access privileges based on the requested and certified role in a timely manner; FSSA and IOT reserve the right to withdraw such authorization for any workforce member, with or without cause, at any time and without prior notice.

(H) Contractor agrees to notify the FSSA Privacy and Security Office or its designee within twenty-four (24) hours of any workforce member terminations or changes in workforce member assignment that would affect their need for access or role.

(I) Contractor agrees that it is solely responsible for the actions, including errors and omissions, intentional misconduct, or malfeasance of its workforce members with respect to their access to and usage of FSSA and/or State Information Systems.

(J) The FSSA Privacy and Security Office (or its designee) and Contractor will collaborate on the methods and means to identify workforce members requiring access, certification, changes, and other communications under this subsection.

T. 45 CFR §155.260 Compliance.

(1) The FSSA Division of Family Resources ("DFR") participates in a PII data exchange with the Centers for Medicare and Medicaid services ("CMS") mandated under the Affordable Care Act ("ACA", Public Law 111-148). The receipt of PII data from CMS through this data exchange ("ACA PII") is in support of the determination of eligibility for healthcare coverage for individuals, which is a primary function of DFR. DFR is designated as the Administering Entity under a computer matching agreement with CMS and, per the terms of that agreement, is obligated to comply with the provisions of 45 CFR §155.260 and §155.280 regarding the privacy and security of ACA PII and that such compliance will be achieved through the application of the privacy and security standards and obligations established in the Minimum Acceptable Risk Standards for Exchanges ("MARS-E") promulgated by CMS.

(2) 45 CFR §155.260(b)(2)(v) requires DFR to bind any downstream entities with which ACA PII is shared to same privacy and security standards and obligations that DFR is obligated to comply with, subject to the provisions under 45 CFR §155.260(b)(3) and in compliance with the monitoring provisions under 45 CFR §155.280.

(3) In this regard (pursuant to the immediately preceding):

(A) Contractor understands that in the performance of its services under this Contract Contractor will be given access to and usage of ACA PII to the extent necessary to perform such services; such access and usage of ACA PII is hereby authorized by the State.

(B) Contractor agrees that such ACA PII is subject to the same provisions of this Section as apply to PII and PHI, including but not limited to subsection H Improper Disclosure, Security Incident, and Breach Notification.

(C) Contractor further agrees that it will employ privacy and security standards over such ACA PII that are consistent with and being at least as protective as the privacy and security standards employed by DFR as described in paragraph 1) above taking into consideration: (i) the environment in which the Contractor is operating; (ii) whether specific standards are relevant and applicable to the Contractor's duties and activities in the performance of the services; and, (iii) existing legal requirements to which Contractor is bound in relation to its administrative, technical, and operational controls and practices, including but not limited to, its existing data handling and information technology processes and protocols.

(D) Contractor additionally agrees that the privacy and security standards it employs over ACA PII will be consistent with the principles established in 45 CFR §155.260(a)(3) and that Contractor will bind any subcontractors with authorized access to ACA PII to the same or at least as protective as the privacy and security standards Contractor employs over ACA PII.

(E) Contractor agrees that it will comply with the applicable provisions under 45 CFR §155.260 as a non-exchange entity.

U. Independent Assessment. If and to the extent that Contractor creates, receives, maintains, uses, and/or transmits PII, as authorized under this Contract, employing information systems owned by, licensed to, in the legal custody of, and/or operated by Contractor (excluding and separate from FSSA and/or State Information Systems), in order to assure Contractor's appropriate application of its privacy and security standards, Contractor will:

(1) Engage a qualified, independent third-party to assess Contractor's privacy and security standards and controls and have such assessment performed on an annual basis with the first such assessment being performed within six (6) months of execution of this Contract. Contractor is solely responsible for ensuring each such assessment is reasonable in scope and depth with respect to Contractor's environment.

(2) Contractor will share the results of each such assessment (e.g., the assessor's report) with the FSSA Privacy & Security Office (or designee), including Contractor's corrective action plan to resolve or mitigate any privacy and security deficiencies identified by the third-party assessor; the State will hold such results in the strictest confidence. The State will review the assessment results, including the corrective action plan, solely for the purpose of gauging the reasonable sufficiency of the scope and depth of the assessment and the reasonable timeliness and approach of the corrective action plan. The State reserves the right to request of Contractor reasonable enhancements to the scope and depth of each assessment and/or each resulting corrective action plan and any disputes between the State and Contractor regarding such requests will be handled in accordance with the Disputes section of the Contract.

(3) Contractor agrees that it will resolve or reasonably mitigate such deficiencies within a reasonable period of time, as identified in the corrective action plan, but by no later than the next annual third-party assessment; provided however that any deficiencies deemed

high risk by the third-party assessor will be mitigated by Contractor within ninety (90) calendar days from date of discovery and any deficiencies deemed moderate or medium risk by the third-party assessor will be mitigated by Contractor within one-hundred eighty (180) calendar days from the date of discovery; as used here mitigation means the deficiency is either resolved or compensating controls are applied that reduce the designated risk level. The State expects that the third-party assessor will confirm the resolution of the identified deficiencies during the next following assessment.

(4) Failure by Contractor to timely and reasonably resolve or mitigate privacy and security deficiencies identified by the third-party assessor and in accordance with the corrective action plan will be considered a material breach of this Contract.

- V. Contractor agrees that it shall be responsible for, including all costs with respect to, fulfilling Contractor's obligations under this Section.

13. Continuity of Services.

- A. The Contractor recognizes that the service(s) to be performed under this Contract are vital to the State and must be continued without interruption and that, upon Contract expiration, a successor, either the State or another contractor, may continue them. The Contractor agrees to:

- 1) Furnish phase-in training; and
- 2) Exercise its best efforts and cooperation to effect an orderly and efficient transition to a successor.

- B. The Contractor shall, upon the State's written notice:

- 1) Furnish phase-in, phase-out services for up to sixty (60) days after this Contract expires; and
- 2) Negotiate in good faith a plan with a successor to determine the nature and extent of phase-in, phase-out services required. The plan shall specify a training program and a date for transferring responsibilities for each division of work described in the plan, and shall be subject to the State's approval. The Contractor shall provide sufficient experienced personnel during the phase-in, phase-out period to ensure that the services called for by this Contract are maintained at the required level of proficiency.

- C. The Contractor shall allow as many personnel as practicable to remain on the job to help the successor maintain the continuity and consistency of the services required by this Contract. To the extent allowed by law, Contractor also shall disclose necessary personnel records and allow the successor to conduct on-site interviews with these employees. If selected employees are agreeable to the change, the Contractor shall release them at a mutually agreeable date and negotiate transfer of their earned fringe benefits to the successor.

- D. The Contractor shall be reimbursed for all reasonable phase-in, phase-out costs (i.e., costs incurred within the agreed period after contract expiration that result from phase-in, phase-out operations).

14. Debarment and Suspension.

- A. The Contractor certifies by entering into this Contract that neither it nor its principals nor any of its subcontractors are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from entering into this Contract by any federal agency or by any department, agency or political subdivision of the State of Indiana. The term "principal" for purposes of this Contract means an officer, director, owner, partner, key employee or

other person with primary management or supervisory responsibilities, or a person who has a critical influence on or substantive control over the operations of the Contractor.

- B. The Contractor certifies that it has verified the state and federal suspension and debarment status for all subcontractors receiving funds under this Contract and shall be solely responsible for any recoupment, penalties or costs that might arise from use of a suspended or debarred subcontractor. The Contractor shall immediately notify the State if any subcontractor becomes debarred or suspended, and shall, at the State's request, take all steps required by the State to terminate its contractual relationship with the subcontractor for work to be performed under this Contract.

15. Default by State.

If the State, sixty (60) days after receipt of written notice, fails to correct or cure any material breach of this Contract, the Contractor may cancel and terminate this Contract and institute measures to collect monies due up to and including the date of termination.

16. Disputes.

- A. Should any disputes arise with respect to this Contract, the Contractor and the State agree to act immediately to resolve such disputes. Time is of the essence in the resolution of disputes.
- B. The Contractor agrees that, the existence of a dispute notwithstanding, it will continue without delay to carry out all of its responsibilities under this Contract that are not affected by the dispute. Should the Contractor fail to continue to perform its responsibilities regarding all non-disputed work, without delay, any additional costs incurred by the State or the Contractor as a result of such failure to proceed shall be borne by the Contractor, and the Contractor shall make no claim against the State for such costs.
- C. If the parties are unable to resolve a contract dispute between them after good faith attempts to do so, a dissatisfied party shall submit the dispute to the Commissioner of the Indiana Department of Administration for resolution. The dissatisfied party shall give written notice to the Commissioner and the other party. The notice shall include: (1) a description of the disputed issues, (2) the efforts made to resolve the dispute, and (3) a proposed resolution. The Commissioner shall promptly issue a Notice setting out documents and materials to be submitted to the Commissioner in order to resolve the dispute; the Notice may also afford the parties the opportunity to make presentations and enter into further negotiations. Within thirty (30) business days of the conclusion of the final presentations, the Commissioner shall issue a written decision and furnish it to both parties. The Commissioner's decision shall be the final and conclusive administrative decision unless either party serves on the Commissioner and the other party, within ten (10) business days after receipt of the Commissioner's decision, a written request for reconsideration and modification of the written decision. If the Commissioner does not modify the written decision within thirty (30) business days, either party may take such other action helpful to resolving the dispute, including submitting the dispute to an Indiana court of competent jurisdiction. If the parties accept the Commissioner's decision, it may be memorialized as a written Amendment to this Contract if appropriate.
- D. The State may withhold payments on disputed items pending resolution of the dispute. The unintentional nonpayment by the State to the Contractor of one or more invoices not in dispute in accordance with the terms of this Contract will not be cause for the Contractor to terminate this Contract, and the Contractor may bring suit to collect these amounts without following the disputes procedure contained herein.
- E. With the written approval of the Commissioner of the Indiana Department of Administration, the parties may agree to forego the process described in subdivision C. relating to

submission of the dispute to the Commissioner.

- F. This paragraph shall not be construed to abrogate provisions of IC § 4-6-2-11 in situations where dispute resolution efforts lead to a compromise of claims in favor of the State as described in that statute. In particular, releases or settlement agreements involving releases of legal claims or potential legal claims of the state should be processed consistent with IC § 4-6-2-11, which requires approval of the Governor and Attorney General.

17. Drug-Free Workplace Certification.

As required by Executive Order No. 90-5 dated April 12, 1990, issued by the Governor of Indiana, the Contractor hereby covenants and agrees to make a good faith effort to provide and maintain a drug-free workplace. The Contractor will give written notice to the State within ten (10) days after receiving actual notice that the Contractor, or an employee of the Contractor in the State of Indiana, has been convicted of a criminal drug violation occurring in the workplace. False certification or violation of this certification may result in sanctions including, but not limited to, suspension of contract payments, termination of this Contract and/or debarment of contracting opportunities with the State for up to three (3) years.

In addition to the provisions of the above paragraph, if the total amount set forth in this Contract is in excess of \$25,000.00, the Contractor certifies and agrees that it will provide a drug-free workplace by:

- A. Publishing and providing to all of its employees a statement notifying them that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the Contractor's workplace, and specifying the actions that will be taken against employees for violations of such prohibition;
- B. Establishing a drug-free awareness program to inform its employees of: (1) the dangers of drug abuse in the workplace; (2) the Contractor's policy of maintaining a drug-free workplace; (3) any available drug counseling, rehabilitation and employee assistance programs; and (4) the penalties that may be imposed upon an employee for drug abuse violations occurring in the workplace;
- C. Notifying all employees in the statement required by subparagraph (A) above that as a condition of continued employment, the employee will: (1) abide by the terms of the statement; and (2) notify the Contractor of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction;
- D. Notifying the State in writing within ten (10) days after receiving notice from an employee under subdivision (C)(2) above, or otherwise receiving actual notice of such conviction;
- E. Within thirty (30) days after receiving notice under subdivision (C)(2) above of a conviction, imposing the following sanctions or remedial measures on any employee who is convicted of drug abuse violations occurring in the workplace: (1) taking appropriate personnel action against the employee, up to and including termination; or (2) requiring such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state or local health, law enforcement, or other appropriate agency; and
- F. Making a good faith effort to maintain a drug-free workplace through the implementation of subparagraphs (A) through (E) above.

- A. The Contractor shall enroll in and verify the work eligibility status of all his/her/its newly hired employees through the E-Verify program as defined in IC § 22-5-1.7-3. The Contractor is not required to participate should the E-Verify program cease to exist. Additionally, the Contractor is not required to participate if the Contractor is self-employed and does not employ any employees.
- B. The Contractor shall not knowingly employ or contract with an unauthorized alien. The Contractor shall not retain an employee or contract with a person that the Contractor subsequently learns is an unauthorized alien.
- C. The Contractor shall require his/her/its subcontractors, who perform work under this Contract, to certify to the Contractor that the subcontractor does not knowingly employ or contract with an unauthorized alien and that the subcontractor has enrolled and is participating in the E-Verify program. The Contractor agrees to maintain this certification throughout the duration of the term of a contract with a subcontractor.

The State may terminate for default if the Contractor fails to cure a breach of this provision no later than thirty (30) days after being notified by the State.

19. Employment Option.

If the State determines that it would be in the State's best interest to hire an employee of the Contractor, the Contractor will release the selected employee from any non-competition agreements that may be in effect. This release will be at no cost to the State or the employee.

20. Force Majeure.

In the event that either party is unable to perform any of its obligations under this Contract or to enjoy any of its benefits because of natural disaster or decrees of governmental bodies not the fault of the affected party (hereinafter referred to as a "Force Majeure Event"), the party who has been so affected shall immediately or as soon as is reasonably possible under the circumstances give notice to the other party and shall do everything possible to resume performance. Upon receipt of such notice, all obligations under this Contract shall be immediately suspended. If the period of nonperformance exceeds thirty (30) days from the receipt of notice of the Force Majeure Event, the party whose ability to perform has not been so affected may, by giving written notice, terminate this Contract.

21. Funding Cancellation.

As required by Financial Management Circular 3.3 and IC § 5-22-17-5, when the Director of the State Budget Agency makes a written determination that funds are not appropriated or otherwise available to support continuation of performance of this Contract, this Contract shall be canceled. A determination by the Director of State Budget Agency that funds are not appropriated or otherwise available to support continuation of performance shall be final and conclusive.

The State will not provide indemnification to the Contractor.

25. Independent Contractor; Workers' Compensation Insurance.

The Contractor is performing as an independent entity under this Contract. No part of this Contract shall be construed to represent the creation of an employment, agency, partnership or joint venture agreement between the parties. Neither party will assume liability for any injury (including death) to any persons, or damage to any property, arising out of the acts or omissions of the agents, employees or subcontractors of the other party. The Contractor shall provide all necessary unemployment and workers' compensation insurance for the Contractor's employees, and shall provide the State with a Certificate of Insurance evidencing such coverage prior to starting work under this Contract.

The invalidity of any section, subsection, clause or provision of this Contract shall not affect the validity of the remaining sections, subsections, clauses or provisions of this Contract.

43. Substantial Performance.

This Contract shall be deemed to be substantially performed only when fully performed according to its terms and conditions and any written amendments or supplements.

44. Taxes.

The State is exempt from most state and local taxes and many federal taxes. The State will not be responsible for any taxes levied on the Contractor as a result of this Contract.

This Contract may be terminated, in whole or in part, by the State, which shall include and is not limited to IDOA and the State Budget Agency whenever, for any reason, the State determines that such termination is in its best interest. Termination of services shall be effected by delivery to the Contractor of a Termination Notice at least thirty (30) days prior to the termination effective date, specifying the extent to which performance of services under such termination becomes effective. The Contractor shall be compensated for services properly rendered prior to the effective date of termination. The State will not be liable for services performed after the effective date of termination. The Contractor shall be compensated for services herein provided but in no case shall total payment made to the Contractor exceed the original contract price or shall any price increase be allowed on individual line items if canceled only in part prior to the original termination date. For the purposes of this paragraph, the parties stipulate and agree that IDOA shall be deemed to be a party to this Contract with authority to terminate the same for convenience when such termination is determined by the Commissioner of IDOA to be in the best interests of the State.

46. Termination for Default.

- A. With the provision of thirty (30) days' notice to the Contractor, the State may terminate this Contract in whole or in part if the Contractor fails to:
 - 1) Correct or cure any breach of this Contract; the time to correct or cure the breach may be extended beyond thirty (30) days if the State determines progress is being made and the extension is agreed to by the parties;
 - 2) Deliver the supplies or perform the services within the time specified in this Contract or any extension;
 - 3) Make progress so as to endanger performance of this Contract; or
 - 4) Perform any of the other provisions of this Contract.

- B. If the State terminates this Contract in whole or in part, it may acquire, under the terms and in the manner the State considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to the State for any excess costs for those supplies or

services. However, the Contractor shall continue the work not terminated.

- C. The State shall pay the contract price for completed supplies delivered and services accepted. The Contractor and the State shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property. Failure to agree will be a dispute under the Disputes clause. The State may withhold from these amounts any sum the State determines to be necessary to protect the State against loss because of outstanding liens or claims of former lien holders.
- D. The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or equity or under this Contract.

47. Travel.

No expenses for travel will be reimbursed unless specifically authorized by this Contract. Permitted expenses will be reimbursed at the rate paid by the State and in accordance with the *Indiana Department of Administration Travel Policy and Procedures* in effect at the time the expenditure is made. Out-of-state travel requests must be reviewed by the State for availability of funds and for conformance with *Travel Policy* guidelines.

48. Waiver of Rights.

No right conferred on either party under this Contract shall be deemed waived, and no breach of this Contract excused, unless such waiver is in writing and signed by the party claimed to have waived such right. Neither the State's review, approval or acceptance of, nor payment for, the services required under this Contract shall be construed to operate as a waiver of any rights under this Contract or of any cause of action arising out of the performance of this Contract, and the Contractor shall be and remain liable to the State in accordance with applicable law for all damages to the State caused by the Contractor's negligent performance of any of the services furnished under this Contract.

49. Work Standards.

The Contractor shall execute its responsibilities by following and applying at all times good industry practice and technical guidelines and standards. "Good industry practice" means at any time the exercise of that degree of care, skill, diligence, prudence, efficiency, foresight and timeliness which would be reasonably expected at such time from a leading and expert contractor of services similar to the Services to a customer like the State, such contractor seeking to comply with its contractual obligations in full and complying with applicable laws. If the State becomes dissatisfied with the work product of or the working relationship with those individuals assigned to work on this Contract, the State may request in writing the replacement of any or all such individuals, and the Contractor shall grant such request.

50. Limitation of Liability.

Contractor's total liability to the State of Indiana for any and all claims, suits, actions, damages, costs, expenses, attorney's fees, and any liabilities whatsoever arising out of or in any way related to this Contract from any cause, including but not limited to negligence, errors, omissions, strict liability, breach of contract or breach of warranty shall not, in the aggregate, exceed an amount equal to the total Contract value for the initial Contract term. The foregoing limitation shall not apply to liability for direct damages related to personal injury, property damage, intellectual property infringement, and breach of any state or federal law with respect to the privacy of personal information including, but not limited to, the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and the HITECH Act.

In no event shall either party be liable for special, indirect, incidental, economic, consequential, or punitive damages, including but not limited to lost revenue, lost profits, (even if such lost revenue or lost profits is ultimately determined to be direct damages), replacement goods, loss of technology rights or services, loss of data, or interruption or loss of use of software or any portion thereof regardless of the legal theory under which such damages are sought even if a party has been advised of the likelihood of such damages, and notwithstanding any failure of essential purpose on any limited remedy.

51. State Boilerplate Affirmation Clause.

I swear or affirm under the penalties of perjury that I have not altered, modified, changed or deleted the State's standard contract clauses (as contained in the *2022 SCM Template*) in any way except as follows:

The Executive Order also requires Government contractors to take affirmative action to ensure that equal opportunity is provided in all aspects of their employment.

Contractor will compile data, maintain records, and submit reports as required to permit effective enforcement of nondiscrimination laws, regulations, policies, instructions, and guidelines. This agreement permits authorized USDA personnel to review such records, books, and accounts as needed during hours of program operation to ascertain compliance.

B. The Clean Air Act, Section 306:

a. No Federal agency may enter into any contract with any person who is convicted of any offense under section 113(c) for the procurement of goods, materials, and services to perform such contract at any facility at which the violation which gave rise to such conviction occurred if such facility is owned, leased, or supervised by such person. The prohibition in the preceding sentence shall continue until the Administrator certifies that the condition giving rise to such a conviction has been corrected. For convictions arising under section 113(c)(2), the condition giving rise to the conviction also shall be considered to include any substantive violation of this Act associated with the violation of 113(c)(2). The Administrator may extend this prohibition to other facilities owned or operated by the convicted person.

b. The Administrator shall establish procedures to provide all Federal agencies with the notification necessary for the purposes of subsection (a).

c. In order to implement the purposes and policy of this Act to protect and enhance the quality of the Nation's air, the President shall, not more than 180 days after enactment of the Clean Air Amendments of 1970 cause to be issued an order (1) requiring each Federal agency authorized to enter into contracts and each Federal agency which is empowered to extend Federal assistance by way of grant, loan, or contract to effectuate the purpose and policy of this Act in such contracting or assistance activities, and (2) setting forth procedures, sanctions, penalties, and such other provisions, as the President determines necessary to carry out such requirement.

d. The President may exempt any contract, loan, or grant from all or part of the provisions of this section where he determines such exemption is necessary in the paramount interest of the United States and he shall notify the Congress of such exemption.

C. The Clean Water Act:

a. No Federal agency may enter into any contract with any person who has been convicted of any offense under Section 309(c) of this Act for the procurement of goods, materials, and services if such contract is to be performed at any facility at which the violation which gave rise to such conviction occurred, and if such facility is owned, leased, or supervised by such person. The prohibition in preceding sentence shall continue until the Administrator certifies that the condition giving rise to such conviction has been corrected.

b. The Administrator shall establish procedures to provide all Federal agencies with the notification necessary for the purposes of subsection (a) of this section.

c. In order to implement the purposes and policy of this Act to protect and enhance the quality of the Nation's water, the President shall, not more than 180 days after the enactment of this Act, cause to be issued an order:

- i. requiring each Federal agency authorized to enter into contracts and each Federal agency which is empowered to extend Federal assistance by way of grant, loan, or contract to effectuate the purpose and policy of this Act in such contracting or assistance activities, and
- ii. setting forth procedures, sanctions, penalties, and such other provisions, as the President determines necessary to carry out such requirement.

d. The President may exempt any contract, loan, or grant from all or part of the provisions of this section where he determines such exemption is necessary in the paramount interest of the United States and he shall notify the Congress of such exemption.

e. The President shall annually report to the Congress on measures taken in compliance with the purpose and intent of this section, including, but not limited to, the progress and problems associated with such compliance.

f. (1) No certification by a contractor, and no contract clause, may be required in the case of a contract for the acquisition of commercial items in order to implement a prohibition or requirement of this section or a prohibition or requirement issued in the implementation of this section. (2) In paragraph (1), the term "commercial item" has the meaning given such term in section 4(12) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(12)).

D. The Anti-Lobbying Act: This Act prohibits the recipients of federal contracts, grants, and loans from using appropriated funds for lobbying the Executive or Legislative Branches of the federal government in connection with a specific contract, grant, or loan. As required by Section 1352, Title 31 of the U.S. Code and implemented at 34 CFR Part 82 for persons entering into a grant or cooperative agreement over \$100,000, as defined at 34 CFR Part 82, Section 82.105 and 82.110, the applicant certifies that:

a. No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the making of any federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal grant or cooperative agreement;

b. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form – LLL, “Disclosure Form to Report Lobbying,” in accordance with its instructions;

c. The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including sub-grants, contracts under grants and cooperative agreements, and subcontracts) and that all sub-recipients shall certify and disclose accordingly.

E. Americans with Disabilities Act: This Act (28 CFR Part 35, Title II, Subtitle A) prohibits discrimination on the basis of disability in all services, programs, and activities provided to the public by State and local governments, except public transportation services.

F. Drug Free Workplace Statement: The Federal government implemented the Drug Free Workplace Act of 1988 in an attempt to address the problems of drug abuse on the job. It is a fact that employees who use drugs have less productivity, a lower quality of work, a higher absenteeism, and are more likely to misappropriate funds or services. From this perspective, the drug abuser may endanger other employees, the public at large, or themselves. Damage to property, whether owned by this entity or not, could result from drug abuse on the job. All these actions might undermine public confidence in the services this entity provides. Therefore, in order to remain a responsible source for government contracts, the following guidelines have been adopted:

a. The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in the workplace.

b. Violators may be terminated or requested to seek counseling from an approved rehabilitation service.

c. Employees must notify their employer of any conviction of a criminal drug statute no later than five days after such conviction.

d. Although alcohol is not a controlled substance, it is nonetheless a drug. It is the policy of the Indiana Family and Social Services Administration that abuse of this drug will also not be tolerated in the workplace.

e. Contractors of federal agencies are required to certify that they will provide drugfree workplaces for their employees.

G. Debarment, suspension, and other responsibility matters: As required by Executive Order 12549, Debarment and Suspension, and implemented at 34 CFR Part 85, for prospective participants in primary covered transactions, as defined at 34 CFR Part 85, Sections 85.105 and 85.110.

a. The applicant certifies that it and its principals:

- i. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency;
- ii. Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- iii. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state, or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
- iv. Have not within a three-year period preceding this application had one or more public transactions (federal, state, or local) terminated for cause or default.

b. Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

H. The federal government reserves a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, for federal government purposes, the copyright in any work developed under a grant, sub-grant, or contract under a grant or sub-grant or any rights of copyright to which a contractor purchases ownership.

EXHIBIT 1

Scope of Work

1.0 Introduction

Exhibit 1 - Scope of Work outlines the duties of this Contract between the Indiana Family and Social Services Administration, Division of Family Resources ("State", "FSSA", "DFR") and Maximus US Services, Inc. ("Contractor", "Maximus") for Central and Regional Change Center Eligibility Operations. When reviewing the below requirements, the word "including" should be interpreted as "including, but not limited to".

2.0 Background

DFR is the division responsible for establishing eligibility for the following programs: Health Coverage (including Hoosier Healthwise, Hoosier Care Connect, and the Healthy Indiana Plan), SNAP, and TANF. Applicants/clients may submit their application online, in person at a DFR Local Office, by mail, via fax, or over the phone. The RCC/CCC Contractor will become part of a larger system of eligibility operations managed by DFR. The State currently contracts for services and staff for the eligibility operations, which consists of the Central Change Center ("CCC"), Regional Change Centers ("RCCs"), and Local Offices. The State also contracts with vendors that provide document scanning; electronic data capture; handling of indexed and non-indexed documents; and printing and mailing notices to clients/applicants. In addition to DFR staff, Contractor should anticipate having touchpoints with some or all of the above named entities and other contractors, as needed and directed by the State, in addition to performing the core Eligibility Services listed in this Scope of Work.

DFR Central and Regional Change Centers (CCC and RCCs) perform functions in support of Local Offices and the eligibility process via telephone. Their functions include but are not limited to data gathering for applications, changes, redeterminations, indexed and non-indexed eligibility supporting documentation; hearings and appeals documentation preparation; benefit recovery; answering client/applicant questions received via phone, and other related activities. Contractor will perform all of the preliminary case processing before the case is submitted to the State for a final determination of eligibility.

DFR Local Offices are the in-person client-facing side of the eligibility operation and vary in size and certain protocols, but they perform functions that include but are not limited to facilitating and accepting applications, conducting interviews, scanning and processing eligibility supporting documentation, answering applicant questions, and authorizing and determining eligibility. There is at least one Local Office per county, with some counties containing multiple Local Offices. Local Offices are staffed by State employees as well as contractor staff provided by the State's Local Office staff augmentation contractor.

3.0 General Project Requirements

The Contractor shall provide comprehensive eligibility services and support for Indiana's Eligibility Operation, specifically in the DFR Central and Regional Change Centers (CCCs and RCCs). The Eligibility Operation is the central resource in helping Hoosiers apply for and receive benefits, including SNAP, TANF, and Health Coverage and relies on three central parts to continue serving the State - CCC and RCC Eligibility Operations (scope of this Contract), Local Office Staff Augmentation (provided under separate contract), and Training (provided under separate contract).

The Contractor shall:

- Gather data for all applications, changes, redeterminations, enrollment forms, supporting documentation, benefit recovery claims, and pre-hearing and hearing tasks;
- Provide adequate staffing resources to meet the requirements for the number of Eligibility Specialists (also referred to as “ES(s)” herein) operating in the Regional Change Centers, including the minimum staffing requirement and maximum staffing requirement to supply the number of Eligibility Specialists dedicated to the Regional Change Centers, as established by DFR;
- Provide adequate staffing resources to meet the CCC eligibility operations requirements, Performance Metrics, and Key Performance Indicators;
- Understand and interface with State systems that support the eligibility process, including but not limited to CODY Systems (and/or State fraud tracking and investigations system), IEDSS (Indiana Eligibility Determination Services System), LMS (Learning Management System), COGNOS, and DFR’s telephony and IVR systems (Interactive Voice Response);
- Leverage State investments in facilities, equipment, and system infrastructure and automation capabilities by utilizing a solution that uses and improves utilization of resources available to FSSA (Note: The State will provide all facilities, equipment, and systems required for eligibility operations, and the Contractor shall indicate how they will use the current infrastructure and systems within DFR.)
- Meet and improve the quality of services for programs and end to end case processing standards as defined by the State-approved Performance Metrics listed in Exhibit 2;
- To ensure consistent work output and to drive accountability, all performance expectations will be based on, but not limited to, the State Program Policy Manuals, IEDSS Online Help, written directions received from DFR Management, including emails, and the application of the ‘End to End’ case processing methodology.
 - a) ‘End to End’ shall be defined as follows: The individual sending the case for SRED confirms that all case information, on which the eligibility determination is based, has been entered accurately. This applies to ALL programs and ALL case actions. This mandatory expectation includes processing of any open tasks and is applicable at Application, Re-Application, Redetermination, and Change processing. The sending of the SRED is the confirmation that all associated tasks and documents have been entered into the case record correctly for an accurate eligibility determination.

The failure of an individual to do so will result in a loss of points during the Quality Assurance (also referred to as “QA”) process but in and of itself will not be considered a breach of the Contract; however, overall poor performance by Contractor on quality Performance Metrics could lead to a breach of the Contract.

- Provide any and all information requested by FSSA, i.e., costs, timing of on-boarding, communication and coordination of New Hire Training, and documentation of remedial training, and any other areas for which FSSA requires supporting documentation.
- Notify DFR and obtain approval from DFR of any operational changes that the contractor desires to implement.
- Implement a “One Call Resolution” Policy defined as completing all tasks and resolving all issues resulting from a given telephone call
- Invoice DFR on a monthly basis.
- Ensure Contractor’s CCC supervisors/managers respond to all requests sent to mailbox, including Internet Quorums (IQ’s) within three (3) business days.
- Utilize Indiana-based staff for all eligibility functions defined in this Contract unless otherwise approved in advance by the Director of DFR.
- Understand that Indiana’s Eligibility Operation is a collaborative effort between State staff as well as third party contractors and working with third party contractors to ensure that

all work processes are aligned and that clients are receiving the highest quality of service possible.

Additional detail on functional requirements can be found in Section 4.1 of this Scope of Work.

There are no region-specific State operational directives or procedures.

4.1.2.1 RCC Staffing and Management Model

The Contractor shall dedicate fully trained and qualified, full-time staff to perform RCC call center and task-based services. The State will direct day-to-day operations of all work referenced in this section, unless otherwise noted.

The State has set a minimum staffing requirement and maximum staffing requirement for the number of Eligibility Specialists dedicated to the RCCs. The Contractor shall staff RCCs in accordance with the thresholds. For more information, please see Section 4.1.D.

The Contractor must provide an adequate staffing plan to meet the requirements of this Scope of Work and State and Federal requirements. The plan must also address the following elements of staffing and management:

- Describe the overall management and supervisory structure including lines of reporting, and clearly identify individuals responsible for management of staff (including any subcontractors) at, regional and statewide levels
- Describe how vacancies will be addressed as well as steps the Contractor will take to ensure a low staff turnover rate
- Describe the hiring policy and confirm that staff will be brought on as employees of the Contractor (or applicable subcontractors) or as "contract-to-hire"; in the latter case the individual must be converted from contractor to employee within 180 calendar days of their start date, to remain on staff. This information must be reported to the State on a monthly basis.
- Confirm the Contractor's understanding that the hourly rates are inclusive of vacation, sick days, holiday and/or personal time for workers. The Contractor must further confirm their understanding that the State shall only be billed the hourly rate for actual time worked.

The Contractor must work with subcontractors to mitigate turnover rates, fill vacancies in a timely manner as determined by the State, and staff the project in such a way that the eligibility operation is not disrupted in any way.

The Contractor shall be responsible for filling vacancies and facilitating their staff's movement between RCC task work and RCC Phone queues as directed by the State. The Contractor must also ensure that any subcontractor staff receive identical pay and equivalent benefits relative to the Contractor's own employees, within six months of their hire date. Trained staff is defined as staff who have successfully completed new hire training and orientation, including the Gateway Exit Examinations. Trainees are defined as staff who are currently enrolled in new hire training and orientation. State-mandated overtime is defined as any time in which the State assigns over 40 working hours per week due to volume demand as specified in the above paragraph. The State-mandated overtime bill rate shall be capped at 140% of the base fully trained Eligibility Specialist bill rate. In the event that the Contractor must assign overtime to fulfill contractual requirements, the Contractor shall be responsible for overtime pay and shall only invoice the State for the total number of hours worked at the standard hourly rates. If the Contractor falls below the minimum staffing requirement, the Contractor may assign overtime to cover up to a maximum of 25 Eligibility Specialists. Please note that this will be the Contractor's responsibility to assign overtime. It will not be State-mandated. If staff are moved from the CCC to the RCC to assist with operations, at the State's direction, those staff shall not be counted towards the RCC minimum staffing requirement. When the State mandates overtime, the Contractor may invoice the State at the overtime rate for work hours completed by fully trained staff that exceed the minimum staffing requirement.

The Contractor shall ensure that all Eligibility Specialists are fully trained to complete all work as defined in the Scope of Work within this Contract and have passed the Gateway examinations prior to accessing any eligibility system, aside from production work during training. - a. The Indiana Eligibility Determination Services System (IEDSS) is the State eligibility system of record for Health Coverage, SNAP, and TANF in Indiana. IEDSS is the automated eligibility system used by the Division of Family Resources in the determination of eligibility for Indiana’s public assistance programs and provides relevant case management capabilities. This system is the Worker Portal, to be used in conjunction with the DFR Phone System (including IVR, Document Management, Call Centers, Service), for the Contractor to conduct all casework, as described within this Contract. IEDSS and the DFR Phone System support all aspects of eligibility determination support as well as call center activities, task management, reporting, benefit recovery processing, hearings & appeals processing, and fraud reporting.

15.0 Amendments

The parties agree that the development of a Transition Plan, during the Transition Period commencing April 1, 2022, may result in identification of operational adjustments in the interest of efficient and effective delivery of services. During the Term of the Contract, each party reserves the right to review the Scope, Performance Standards, and associated Fees, and make recommendations for reasonable adjustments as business processes evolve or opportunities for operational efficiency are identified. Upon presentation of such recommendations, both parties agree to enter into discussions in good faith to evaluate and assess the proposed modifications and amend the Contract as necessary. If agreement cannot be reached, the parties will abide by Contract Section 16: Disputes.

EXHIBIT 2
Performance Metrics

I. Administration

1. On or before the 15th of each month, the Contractor shall invoice the State for 80% of the Contractor's monthly invoice amount for the previous month. The remaining 20% shall be withheld pending resolution of Contractor's overall performance against all Performance Metrics as described below in Section II.
 - a. The monthly amount billed for facilities (including lease costs and operating expenses) will not be subject to the above stated withhold.
 - b. During the first three months of the operational period that begins January 1, 2023,
 - i. No withholds will occur for the time period of January 2023 through March 2023 to allow new vendor an opportunity to become familiar with Timeliness, Quality, and Staffing Performance Metrics.
 - c. During the second three months (i.e., months 4-6) of the operational period that begins on January 1, 2023,
 - i. No withholds will occur for failure to meet Staffing Performance Metrics for the time period of April 2023 through June 2023 to allow new vendor an opportunity to ramp up to meet Staffing Performance Metrics.
 - ii. Withholds may occur related to Timeliness, Quality Performance and QA Metrics.
 - d. Effective July 1, 2023, all Performance Metrics will be subject to potential withholds.
2. Following verification of the Contractor's overall performance against Performance Metrics, the invoice amount may be subject to permanent withhold:
 - a. If the Contractor meets all Performance Metrics in a single month, 0% of the invoice amount will be permanently withheld.
 - b. If the Contractor fails to meet one (1) Metric in a single month, 10% of the invoice amount will be permanently withheld.
 - c. If the Contractor fails to meet two (2) Metrics in a single month, 15% of the invoice amount will be permanently withheld.
 - d. If the Contractor fails to meet three (3) or more Metrics in a single month, 20% of the invoice amount will be permanently withheld.
3. Assessment of Contractor's success or failure to achieve Quality Metrics shall be performed by the State or a designated State contractor, including but not limited to, the State's Operational Verification and Validation (OV&V) contractor. The OV&V contractor will conduct an initial review of a statistically valid sample. Such statistically valid sample

will exclude all types of work completed in Production¹ by 1) individuals while in training, and 2) individuals who have graduated from training and passed the Gateway examinations for a period of ninety (90) days after graduation. The Contractor may rebut the OV&V contractor's findings within ten (10) business days after receipt of the OV&V contractor's report. This rebuttal must be sent to the OV&V contractor and include all relevant documentation; no additional rebuttal documentation will be accepted after ten (10) business days following the receipt of the OV&V contractor's report. If the Contractor and the OV&V contractor are unable to reach agreement during the rebuttal process, DFR will make the final determination. DFR will have ten (10) business days to review the Contractor's rebuttal and relevant documentation before making a determination. DFR's determination regarding the rebuttal will be final.

4. The validated OV&V score (or, if applicable, the rebutted score as determined by DFR) will be the final metric score utilized by the State to determine Contractor's performance. Note: as stated in I.3. above, the final validated score will exclude scores for all types of work completed in Production by 1) individuals while in training, and 2) individuals who have graduated from training for a period of 90 days after graduation.
 - a. The State or designated State contractor including but not limited to the OV&V contractor will be responsible for providing necessary IEDSS data to support the measurement of metrics.
5. Subject to the approved Waiver and Earn Back provisions below and following verification of Contractor's overall performance against all Performance Metrics, Contractor may invoice the State for the applicable amount of withheld funds. For example, if Contractor successfully meets all Metrics requirements for January and verification is completed in February, the 20% portion of the January invoice that was withheld may be claimed with the February invoice. Conversely, if Contractor fails to meet two (2) Metrics requirements for January and verification is completed in February, 5% of the January invoice that was withheld may be claimed with the February invoice. The remaining 15% to be permanently retained by the State. Withheld amounts permanently retained by the State under this provision are not penalties, but rather the payment of lower amounts for lower quality performance.
6. The Contractor shall submit the Monthly Performance Report no later than the (tenth) 10th calendar day of the following month to DFR Executive Management and the IEMP email address: IEMPState_Review.FSSA@fssa.IN.gov and include [Performance Metrics results in the](#) Monthly Performance Report (see Section 12 of Exhibit 1 - Scope of Work for more details on the contents of the Monthly Performance Report).
7. If Contractor fails to meet the requirements for one or more Performance Metrics ("missed Performance Metric(s)") or for any other reason, the State may request that the Contractor submit a Corrective Action Plan (CAP) to the State within ten (10) calendar days following a written request from the State. The State shall review and make reasonable efforts to approve the CAP within ten (10) calendar days of the CAP being received.

¹ Production shall mean work performed by an Eligibility Specialist who is fully trained to complete all work as defined in the Scope of Work within this Contract and have passed the Gateway examinations prior to accessing any eligibility system, aside from production work during training.

8. **Waiver Requests** - If any events occur that Contractor believes adversely and materially affected its ability to meet any of its Staffing, Timeliness, and QA Review Performance Metrics numbers 1 through 13, and 19 through 22 and Quality Performance Metrics 14 through 18, due to causes outside of Contractor's control, including but not limited to, the State, including its subcontractors, not fulfilling the State's duties under the Contract, including but not limited to the items listed under sections 13 and 14 of Exhibit 1 (Scope of Work), or any Force Majeure Events as defined in Section 20 of the Boilerplate Contract, Contractor may submit a request for a waiver from meeting the affected Performance Metric(s) with the Monthly Performance Report (MPR) applicable to the month for which the Timeliness, Staffing and QA Review Performance Metric(s) were missed or within ten (10) calendar days after receipt of written notice that a Quality Performance Metric(s) were missed.

If Contractor submits a waiver request, it has the burden to establish materiality and provide specific and detailed facts that the event(s) described above were the proximate cause of the Contractor's inability to meet any of its Performance Metrics.

The DFR Director or their designee will make a reasonable effort to respond in writing within ten (10) calendar days.

9. **Earn-Backs**- If Maximus misses one or more of the Timeliness, Staffing Performance or QA Metrics 1 through 13, and 19 through 22 in a given month, but then meets the missed Performance Metric(s) in either of the two following months, Maximus may be eligible to invoice for the withheld amount(s) related to the missed Performance Metric(s). The invoicing would be dependent upon the total of other Performance Metrics missed in that given month and the ability to invoice would occur only after the conclusion of the validation process for the Quality Performance Metrics for that given month.

For example, if Maximus misses Timeliness Performance Metric 19 in January and does not miss any Quality Performance Metrics, misses the Timeliness Performance Metric again in February, but meets the Timeliness Performance Metric in March, it may be eligible to invoice for the withhold related to Timeliness Performance Metric 19 that it missed in January and February after the conclusion of the validation process for the quality Performance Metrics for January and February.

If Maximus misses one or more of the Quality Performance Metrics 14 through 18 in a given month, but then meets the missed Performance Metric(s) the following month or the month following the month it received notice of the validated, missed Performance Metric(s), Maximus may be eligible to invoice for the withheld amount(s) related to the missed Performance Metric(s). This would be dependent upon any other Performance Metrics being missed in that given month.

For example, if Maximus misses Quality Performance Metric 14 in January but meets the Performance Metric in February as determined by the validation process by the end of March, it may be eligible to invoice for the withhold for Quality Performance Metric 14 that it missed in January. Or if instead of February, the Quality Performance Metric is met in March as determined by the validation process by the end of April, it may be eligible to invoice for the withhold related to Quality Performance Metric 14 that it missed in January and February.

Performance Metrics
