This Amendment #4 to the current contract is to change project plan and the payment schedule. IDWD released a request for proposal ("RFP") for the Unemployment Insurance Modernization ("UIM") Project. This project is a multi-year initiative to modernize and replace a 17-year-old unemployment insurance ("UI") computer system in order to maximize servies to all customers while streamlining internal IDWD processes. .

38. Justification of vendor selection and determination of price reasonableness:
The UIM Steering Committee awarded the UIM Project contract to Haverstick Consulting, Inc ("Haverstick") and its partners, including Tier Technologies, Inc., Number Six Software, Crew Technical Services and Source. The Haverstick proposal scored equal to or higher than all other proposals in every measurable category. The Haverstick proposal was over $7 million less than the second place bidder.

Amendment # 4

This Amendment #4 ("Amendment #4") modifies the Unemployment Insurance Modernization Agreement entered into by and between the State of Indiana, acting through the Indiana Department of Workforce Development (the "State") and Haverstick Consulting, Inc. (hereinafter "Haverstick") effective September 6, 2005, as amended in Amendment #1, dated January 25, 2006, as amended in Amendment #2, April 30, 2006, and as amended in Amendment #3, dated July 31, 2006 (collectively referred to herein as the "Agreement").

WHEREAS, the Agreement requires Haverstick to provide the State with a modernized unemployment insurance system (the "UIM Project");

WHEREAS, it has become necessary to make changes to the scope of the UIM Project to accommodate the delivery of certain additional functionality, to expedite the delivery of certain services to the State and to change the approach to the UIM Project from a "light's on" approach at the end of the UIM Project to a phased-in, iterative-development basis (so called "Quick Wins" approach);

WHEREAS, these changes have and will continue to increase value to the State's customers and employees by providing functionality and services to the State and the State's customers significantly earlier than originally planned for;

WHEREAS, these changes have and will continue to lower the State's risk in connection with the UIM Project by allowing the State to evaluate the UIM Project as a result of utilizing phased processes and deliverables during the course of the UIM Project;

WHEREAS, the parties have completed an in-depth project plan for the remainder of the UIM Project (the "Project Plan") which sets the Implementation Date for the UIM Project as on or before November 21, 2008.

WHEREAS, these changes require additional money and time to complete the UIM Project;

NOW THEREFORE, in consideration of the mutual undertakings and covenants hereinafter set forth, the parties agree to amend the Agreement as follows:

1. Section 3.1 of the Agreement, Delivery, is removed in its entirety and replaced with the following:

"Section 3.1 **Delivery**. Haverstick shall deliver, in accordance with the timeline, terms and conditions set forth in this Agreement and the SOW, all those goods or services

specified as deliverables under the SOW and in the Payment Schedule attached hereto as Exhibit C, including but not limited to all software object and source code, as set forth in the SOW, to be delivered by Haverstick as part of the Services, any and all related Work Product (as defined in Section 8.1) and all materials provided by Haverstick in performance of the Services (the "Deliverables") by the dates specified in the SOW or Payment Schedule, as applicable. Subject to Section 3.4 of this Agreement, final implementation of the UIM System shall occur on or before November 21, 2008 (the "Implementation Date")."

2. The reference to May 1, 2008 in the second paragraph of Section 3.4 of the Agreement, Final Acceptance, is removed and replaced with November 21, 2008.

2. The first two sentences of Section 4.1 of the Agreement, Fees, are removed in their entirety and replaced with the following:

"Section 4.1, **Fees.** The fees for the Services performed under this Agreement and the SOW are set forth in Exhibit C to this Agreement, Payment Schedule. Remuneration to Haverstick under this Agreement shall not exceed Twenty-Eight Million, Four Hundred Thousand Dollars ($28,400,000) (the "Agreement Price")."

3. The following is added at the end of Section 3.4 of the Agreement, Final Acceptance:

> "Neither party shall assess any penalties, liquidated damages or charges in connection with any delay in the Implementation Date in an aggregate amount of up to 45 calendar days. This does not apply to delays caused by the State requesting additional functionality not already agreed to under the Agreement."
>
> "Each party shall maintain documentation regarding the notification of each delay and shall promptly notify the other party, in writing, of any such delay in the Implementation Date. Notification for the State must be given to the Deputy Commissioner (State's Executive Director) and notification to any other State employee shall not constitute notification. Notification for Haverstick must be given to Haverstick's representative on the UIM Executive Steering Committee and notification to any other Haverstick employee shall not constitute notification. The parties shall use commercially reasonable efforts to mitigate the delay duration and impact of the delay on the UIM Project."

4. Exhibit B of Agreement, Key Personnel, shall be changed to the following:
